

TRX Technology

Key Features Include:

- **Toll Free Dictation**
Allows designated users to record dictation creating digital voice files using a telephone. Key maps can be set to match existing legacy systems.
- **TRX eReport**
Allows designated users to access completed and archived documents anytime and anywhere from a secure Internet web browser. Our comprehensive search function allows designated users to search for previously completed and released documents. TRX eReport also allows for electronic signature and sign off.
- **Automated Document Delivery**
Allows simultaneous multipoint delivery to fax, print and HL7 HIS system networks.
- **TRX Digital**
Allows designated users to securely upload dictation from digital voice recorders, PDA (Pocket PC) and computers.
- **TRX Wireless**
Allows designated mobile users the convenience of accessing admission, discharge and transfer data at the bedside. Users can also dictate and receive their completed reports via our Personal Digital Assistant (IPaq or other CE Windows Pocket PC).

System Architecture and Security Overview

To ensure the security and availability of your records our voice and text platform is built using state-of-the-art hardware and software, which includes:

- WebLogic with Verisign SSL Encryption Certificate
- Oracle Server with Database Administrator
- Red Hat with Linux Administrator

TRX maximizes your ability to meet the privacy and portability challenges that HIPAA demands. Our state-of-the-art 128-bit data encryption during file transfer ensures the security of your document. TRX client data is housed in data centers that utilize redundant server arrays to ensure continuous data availability, as well as providing firewalls and a LAN architecture that scales to meet—and usually exceeds—clients' demanding bandwidth requirements. In fact, the architecture scales in anticipation of client demand by employing powerful routers running at gigabit speeds. For more information on our security methods, please visit our website at www.trxinc.net.

Next Generation Transcription

Integrating web, wireless and data solutions for medical document management

For more information on how TRX can help your healthcare organization meet the next generation of document management challenges, visit us at www.trxinc.net and fill out a simple online form. Or just call us at 877.2TRX.XINC (877.287.9462).

Leading The Way)))

TRX is leading the way to the next generation of medical document management solutions. Well ahead of the curve in the use of best-of-breed technologies from digital dictation to document delivery, TRX helps to move clients toward a true EMR with instant accessibility from any location on multiple platforms -- while ensuring complete patient confidentiality. Our leadership role in the industry is clearly mapped by the way we are moving quickly to bring our clients into full HIPAA compliance. Making full use of Internet-based voice and text applications, we provide our clients with extremely flexible document management solutions that work. Our open architecture allows

us to quickly add or modify new features based on client needs. But it's not just the technology that is key to our success. TRX's core values of strong partnership, solid communication, and exceptional customer service are also among the many reasons we are rapidly becoming industry leaders. In the end, it's the people at TRX that make the difference.

TRX utilizes open architecture to eliminate the need to open the "Pandora's Box" of outdated and expensive legacy systems. TRX's national presence and advanced technology gives our clients the flexibility, control and security they need, while simultaneously reducing the time and cost necessary for efficient medical document management.

TRX is bringing best-of-breed technology and highly qualified people together to lead the way to the next generation of document management.

TRX Suite of Services:

- Stat Turnaround
- 24/7 Customer Support
- HIPAA Compliance
- AAMT Quality Standards
- Account Assigned Staff
- Customized Workflow Management
- Detailed Billing Reports
- Specializing in Acute Care & Teaching Hospital Environments

Our Cutting Edge Technology Solutions:

- Require No Capital Investment
- Carry No Maintenance Fees
- Provide Sophisticated Management Features such as:
 - 24/7 Accessibility
 - Report Tracking
 - Electronic Signature
- Offer Ease of Use and Unlimited Scalability
- Reduce IT, FTE and Telephony Costs

TRX Core Values)))

Strong Partnerships

TRX views each client as a partner. We work hand-in-hand with our partners, from consultation through implementation to make certain we achieve the right document solution to meet the specific needs of each client. Our strong commitment to open communication throughout the process further ensures we will meet your organization's document management objectives. TRX offers the assurance that comes from working with a firm that contributes real value, provides the integrity that builds trust, and offers the sense of security that comes from knowing TRX is there whenever the client needs them.

Creativity

Complex problems require creative solutions. TRX's commitment to reliable technology and operational efficiency allows us to deliver customized solutions designed specifically for our clients' organizations. We brainstorm and innovate in collaboration with our clients to find document management solutions that are truly "outside the box."

Integrity

We pride ourselves on our professionalism and honesty; we recognize the importance of open and trusting relationships between clients and vendors in areas of billing, confidential management of patient data, and dependable support.

Economic and Educational Development

The entire healthcare industry is facing severe labor shortages that affect delivery of patient care and the smooth functioning of healthcare organizations overall. TRX is committed to becoming part of the solution. We are dedicated to reviving the transcription labor pool throughout the U.S. by creating meaningful education and employment opportunities.

TRX Core Services

- Client Profiling – TRX provides an in-depth consultation service in order to customize document management solutions to meet your organization's singular environment.
- Custom Technology Assessment – TRX will analyze your current technology and make recommendations for quick improvements to your existing system, as well as provide alternatives for improving efficiency while simultaneously reducing cost.
- Cost Benefit Analysis – TRX assists each client in clearly identifying their true existing cost, revenue depletion, cumbersome and redundant functionality, as well as overages in housing and staffing requirements. We'll provide a detailed description of our analysis and suggest alternatives for improving your bottom line.
- Continuous Feedback Loop – Staying in constant communication with clients makes certain that we meet their needs in a timely manner. Each client is provided a designated, highly trained professional staff member to function as your personal point of contact throughout our relationship.

To receive a free client profile, custom technology assessment, and cost benefit analysis for your healthcare organization, please visit www.trxinc.net and fill out a simple online form. The information you provide will allow us to begin the process of designing a custom solution to take you into the next generation of document management.
